

## SUSPECT DENIES HE CONFESSED TO SLAYING OF GIRL

Police Say Story Does Not Fit as to Time He Was at Home.

Frank Jancarek, Madison, N. J., held on suspicion in connection with the murder of little Jeanette Lawrence on Oct. 6, is alleged to have admitted to Captain of Detectives Brex of Newark that he saw the mother of the child near her home on Ridgedale Avenue, Madison, at about the time the little girl is known to have been murdered.

This is considered important in view of the attempt of Jancarek's relatives to establish an alibi for him by saying that he was at home eating supper at 6.10 P. M. on that day. For Mrs. Lawrence says that if he saw her in Ridgedale Avenue it must have been between 6 and 6.10, when she left the house to look-up and down the street to see if Jeanette was in sight. It is said to be thirty minutes' walk from the spot where he is said to have seen Mrs. Lawrence and the place where he is said to have been eating at 6.10.

Capt. Brex said that Jancarek could have seen Mrs. Lawrence where he says he did if he had been standing beside the log in Kluxen Woods where the body of the child was found. Brex also said Jancarek had changed his story by admitting that he did change his clothes on reaching home that evening. The suit of clothes he wore that day, Brex said, is being examined bacteriologically for traces of human blood.

The police were told that Frank McGroarty of Newark, who says Jancarek confessed to him that he killed the girl after attacking her because he feared she had recognized him, worked at the same greenhouse where Jancarek was employed and was discharged last week. He is alleged to have blamed Jancarek.

According to Capt. Brex, McGroarty made the following statement:

"I was with Jancarek the day of the murder and left him about noon. I met him again that night and noticed his shirt, shoes and trousers were spotted with blood. It was then he told me how he had assaulted and finally murdered a girl because, after assaulting her, he thought she identified him."

McGroarty is also detained pending the investigation of his whereabouts the day of the murder. The detention of Jancarek probably will delay the Grand Jury investigation of the charge against Francis Kluxen 3d.

### RELYEA SUCCEEDS EBEL.

Veteran Shipping Man Appointed to Emergency Fleet Office.

WASHINGTON, Oct. 28.—Frank W. Relyea of New York was yesterday appointed District Manager of the San Francisco office of the Emergency Fleet Corporation. He succeeds H. H. Ebel, who resigned Oct. 24.—This district includes California and Oregon.

Mr. Relyea has been connected with shipping since 1880. During the war he was Lieutenant in the navy, serving as General Superintendent of all traffic including ships, railroads, warehouses, motor trucks and motorboats in France.

## "IZZY" AND "MOE" ARE THE ONLY DRY AGENTS LEFT HERE

Jobs Kept Open for Miller's Choice to Fill—More Permits Revoked.

Owing to the discovery by E. C. Yellowley, the pinch-hitting Prohibition Director, that many Prohibition agents have been making hay while the sun was unobscured by clouds, the enforcement forces of this district have been almost eliminated by the discharge of field and office men who are declared to have been "inefficient." The Field Enforcement Squad has been so reduced that it appears to consist only of Izzy Einstein and Moe Smith.

There are hundreds of applications for jobs as enforcement agents on file in Mr. Yellowley's office, but he has decided that he will fill no places during his remaining brief term. Ralph Day, the choice of Gov. Miller and the State Republican machine for Prohibition Director, will assume charge on Nov. 1. After that date the applications of deserving Republicans will be given consideration.

Mr. Yellowley announced to-day that he has revoked the withdrawal permits of Andrew Rose, No. 58 Monroe Street; Hebe Drug Company; No. 190 Columbia Street, Brooklyn; George Econom, No. 172 Columbia Street, Brooklyn, and Ralph Tremblay, No. 74 Fourth Avenue, New Rochelle. None of the local breweries has made application for permission to manufacture medicinal beer under the new Treasury Department ruling. Mr. Yellowley said, although several brewers have asked for information on the subject.

Herman Ratner, a brother of "Augie" Ratner, a widely known local pugilist, and Benjamin Levy were held by United States Commissioner Hitchcock to-day on charges of possessing and trying to negotiate forged permits for the withdrawal and sale of whiskey. Ratner's bail was fixed at \$10,000 and Levy's at \$2,500. Assistant District Attorney McCormick and Prohibition Agent Howard R. Kiroack alleged that Ratner, under the name of "Patrick Ryan" and Levy under the name of "William A. Collins" attempted to put the forged permits through the Prohibition office in Washington in July, 1920. The evidence Kiroack explained, has just come to hand.

### THOMPSON SPEAKS FOR HYLAN.

George F. Thompson of Niagara County, former State Senator, who carried Brooklyn against Gov. Miller in the Republican primary in 1920, last night took the stump for Mayor Hyman. He spoke at Public School No. 55, in East 169th Street, the Bronx. He attacked the report of the Transit Commission and its proposed solution of the transit problem, and urged the presentation of a proper case to the courts is necessary to protect the city's interest in its \$500,000,000 subway investment and the 5-cent fare.

NELLIE BLY SEES INJUNCTION. Mrs. Elizabeth C. Seaman, better known as Nellie Bly, has asked the United States District Court in Brooklyn for an injunction restraining her brother, Albert P. Cochran; Thomas the Steel Barrel Company and Paul W. Tower from disposing of the stock of the Steel Barrel Company until her mother's estate shall have been settled. Decision was reserved by Judge Garvin. W. Miller, Alien Property Custodian;

## BEATEN, HE SAYS, BY POLICEMAN FOR LETTER TO ENRIGHT

Tailor Charges He Was Laid Up for Days and Patrolman Is Held for Trial.

Pasquale Timpido, No. 1332 67th Street, Brooklyn, a patrolman attached to the Fourth Avenue Station in that borough, was held in \$1,000 bail in the Coney Island Court to-day on a charge of felonious assault. The complaint was by Frank Petrone, a tailor, No. 6003 13th Avenue. Petrone said he met Timpido, who was in civilian clothes, near his tailor shop in 13th Avenue on Oct. 5, and that Timpido accused him of "writing letters about me to Commissioner Enright." He said the letters, according to Timpido, accused the policeman of "having epileptic fits and beating people up."

Petrone said he denied having written any such letters, but Timpido, he said, attacked him anyway, striking him down, knocking out two teeth and kicking him. He said he was confined to his home by his injuries for several days, after which he went to the District Attorney's office and was advised to swear out a warrant, which he did.

Timpido was represented in court to-day by a lawyer, who entered a plea of not guilty and asked that his client be paroled. The court insisted on bail, which was furnished by a surety company.

### TRAMWAY TO WIPE OUT OLD WALLS OF PEKING

Chinese and Foreigners Alike Join in Strong Protests.

PEKING, Oct. 4 (Correspondence of the Associated Press).—Construction of a modern tramway system will wipe out the ancient walls of Peking, called by the populace "the glory of the city." If plans submitted to the municipality by the Peking Tramway Company materialize.

The company, in its memorandum, refers to the city walls as "useless" and cites the "fine example of Tientsin," where the walls were razed several years ago.

The proposal has called forth strong opposition from foreigners and Chinese alike, and pressure is being brought to bear upon the municipality to preserve the ancient walls at any cost.

### DOLLARS GREW TOO FAST, ECONOMISTS EXPLAIN.

The average individual income in this country, which was \$340 in 1910 and \$354 in 1913, rose to \$355 in 1918 but in 1920 it was \$372. Thus while incomes increased two-thirds, the purchasing power of the dollar decreased more than one-third. A great increase in dollars occurred in 1918 but not a corresponding increase in production, with resulting rise of prices.

These are conclusions reached by the National Bureau of Economic Research, an abstract of whose findings was made public yesterday in advance of the detailed report to be published in November. The bureau was organized after the war to help to solve national problems. The directors include T. S. Adams of the Treasury Department; John R. Commons, University of Wisconsin; John P. Frey, editor of the International Monetary Journal, and Edwin F. Gay, President of the New York Evening Post.

## BRONX GRAND JURY TO GET EVIDENCE OF PETITION FRAUD

Edward L. Van Orden's Name Ordered Stricken Off the Ballot for Sheriff.

District Attorney Edward J. Glennon of the Bronx declared his intention to-day of presenting to the Grand Jury next week evidence in alleged fraudulent attestations of signatures to the petition of Edward L. Van Orden, whose name as Independent Republican candidate for Sheriff was ordered stricken from the ballot by Supreme Court Justice Giegerich late last night.

Justice Giegerich found, on evidence presented, that nearly 1,000 of the signatures to the petition were invalid and with the invalid signatures removed there remained less than the 1,500 signatures of registered voters required by law. In the course of the proceedings charges were made against two notaries public and Justice Giegerich suggested that these charges be called to the attention of the District Attorney.

Richard W. Lawrence, Republican Chairman of Bronx County, decided to postpone action until after the election in order to avoid taking a Republican organization fight into the criminal courts. However, District Attorney Glennon, who is a Democrat, will take up the matter immediately.

Van Orden, after being defeated at

the primaries by the Coalition candidate, Patrick J. Kane, former Democratic leader of the Third Assembly District, entered the lists as an independent candidate on a so-called five-cent fare ticket.

The case came before Justice Giegerich on a motion by John Boyle, representing the Coalition party of the Bronx, who disputed the validity of 915 of the 2,356 signatures on the Van Orden petition.

The case was decided by Justice Giegerich after seventy-one men and women had been subpoenaed and taken in eight automobiles to the court, where they stated they had signed the petition under the impression that it was a 5-cent fare proposition. They said they did not know that Van Orden had anything to do with it.

It was admitted at the beginning of the hearing that 719 of the 915 had not registered. Nineteen other signatures were alleged forgeries, nineteen duplicates and six illegible, thus bringing the number of invalid signatures to 824.

Following further investigation it was brought out forty-two more had not registered. This brought the number of invalid signatures to 876, which deducted left but 1,480 valid signatures.

Dr. Jonathan Titus Deyo Dead. Dr. Jonathan Titus Deyo, seventy-five, of No. 321 Beverly Road, Brooklyn, died suddenly last night in front of No. 321 Fifth Avenue, Brooklyn, while on his way to a patient in South Brooklyn. Mrs. Deyo said Dr. Deyo was not well last night but the call was from an old patient and he felt he must respond. Dr. Deyo was born in Ulster County, New York. He practiced in Manhattan for about thirty years before going to Brooklyn twenty-five years ago.

Hotel, Man's Suicide Laid to Prohibition.

Malcolm Robertson, fifty years old, proprietor of the Empire Hotel, Canarsie Landing, on Jamaica Bay, was found dead early to-day from a bullet wound in his head. Investigation showed it was a case of suicide. Since Prohibition business has not been so good, Robertson was a well known Mason.

## NO TRUST FUNDS FOR TWO STILLMAN BOYS, SAYS LAWYER

James and Alexander Declared Not Benefited That Way By Grandfather.

Neither James Stillman, age seven, nor his brother, Alexander, ten, has any trust fund, according to the statement to-day of Outbridge Morsey, who appeared for James A. Stillman, in opposition to Mrs. Anne Urquhart Stillman's application to be appointed general guardian of certain trust funds and moneys created by the grandfather of the children. The only funds in the possession of the children's father, the attorney said, represented birthday and Christmas gifts made to the children by their grandfather and their father during the last sixteen years.

This information came out during arguments before Surrogate Cohalan, who reserved decision and gave both sides one week in which to file briefs. Neither Mrs. Stillman nor the banker was present.

John F. Brennan and City Judge

## CLEAN UP PRECINCT POLITICS, ADVISE TO WOMEN VOTERS

Congresswoman Says Men Know No More About Game Than Women.

BOSTON, Oct. 24.—Women were advised to mix up in precinct politics and not to consider themselves "superior to such things as politics" by Alice Robertson, representative in Congress from Oklahoma, in a Roosevelt Day address here last night.

"I used to say that not one woman in 100 knew anything about politics," Miss Robertson continued. "It was one of the old arguments of the Antie. I've since found out that not one in 100 men know anything more than the women do. The remedy for that is for the women to make the men interest themselves more. Clean up your precinct politics. If you don't you can never be assured of the best Government for your city, your State or your country."

"Women have no right to seek special legislation any more than the men have."

"In the case of Alexander," the attorney said, "the funds for him in the possession of the father amount to \$1,999, producing an annual income of \$123."

The present divorce suit was alluded to by Mr. Morsey when he explained to the court that the suit is pending in Westchester County. He said that under a ruling of that court the children were permitted to elect the parent with whom they wished to live. The attorney argued that for the Surrogate to pass now on Mrs. Stillman's application would result in two courts deciding the question as to the fitness of guardianship and might cause conflict. Mr. Morsey urged no action be taken by the Surrogate pending the result of the divorce suit.

### 22 DROWN IN WRECK OFF SPAIN.

MADRID, Oct. 28.—The Spanish steamship Torre del Oro has been wrecked on the Spanish coast near Port Mahon and twenty-two members of her crew have been drowned, according to reports received in Madrid to-day.
